PRINCE2 AGILE PRACTITIONER

PRINCE2 Agile® is the world's most comprehensive collection of agile project management methods. It combines PRINCE2®'s clearly defined framework, which thousands of Danish project managers have enjoyed for years, with the agile world's flexibility and unpretentiousness. This combination is very valuable for project managers, participants, and organisations who wish to challenge and expand their application of PRINCE2® with agile tools.

PRINCE2® is sometimes mistaken as being documentation-heavy. PRINCE2 Agile® puts great emphasis on supporting project participants to avoid bureaucratic work within the PRINCE2®'s framework. As a PRINCE2®-certified course participant, you will greatly expand your toolbox – whether or not your company has chosen to work in an agile way.

You can also save money by purchasing the [PRINCE2® Foundation and PRINCE2 Agile® Practitioner](#) in a combined course package.

Participant Profile

The course is relevant for anyone who wants to work in a more agile way with PRINCE2®. A certain level of knowledge of PRINCE2® is required for the course, so it is not advisable to participate if you are not familiar with PRINCE2®. Agile experience is not a requirement as we go through the agile methods and frameworks.

If you want to be certified in PRINCE2 Agile® Practitioner, it is a requirement that you have already passed a PRINCE2 Foundation® or PRINCE2 Agile® Foundation certification exam, or have another relevant certification in IPMA® or PMI®.

The course is highly relevant for all PRINCE2® certificate holders, as PRINCE2® Agile Practitioner provides a more nuanced picture of how PRINCE2® can also be used in projects.

“Such a great facilitator, who explains everything so well and facilitates relevant cases and exercises.”

– Nina Ingvarsten, Program Manager, CBS Executive Fonden

MannaZ

Programme structure and content

This course is held over 3 consecutive days.

Before the course, you should expect approximately **30-50 hours of preparation**.

During this course, you work on:

- 🕒 Specific methods for working in an agile way with your PRINCE2® project
- 🕒 Integration of the agile approach's flexibility towards PRINCE2®'s comprehensive structure
- 🕒 Exercises in agile tools that can be added to your projects from day one
- 🕒 Agile tools such as Scrum, Kanban and Lean Startup

The price includes

- 🕒 The official PRINCE2 Agile® manual (will be sent to you 3-4 weeks before the course starts)
- 🕒 Official PRINCE2 Agile® Practitioner certification exam (online with PeopleCert after the course)
- 🕒 Official PRINCE2 Agile® Practitioner certificate (upon passed exam)
- 🕒 3 course days
- 🕒 All meals
- 🕒 Course materials
- 🕒 Letter of course attendance (on demand)
