PROJECT MANAGEMENT 2

A good start determines the success of your projects. Project Management 2 is an advanced project management course on promoting commitment and quality during the process. The goal is to enable you to handle your project team during the project's start-up phase – and everything that entails.

Through this project management course, you will practice and reflect on specific methods for team development and project planning, all with a focus on managing your team and the collaboration within it.

Why choose this course

Mannaz Project Management Programme is IPMA® Registered.

Mannaz Project Management Programme is based on "The International Competence Baseline" developed by the International Project Management Association (IPMA®). The training covers the topics required for you to qualify for IPMA® certification through Dansk Projektledelse.

Participant Profile

You will benefit the most from this course if you have some project management experience.

The course is particularly well suited to participants who are about to plan a new project or a major phase of a large project.

Participants typically include project managers, project administrators, assistant managers, and project coordinators.

"Overall, the facilitation, course materials and learning sessions were engaging and challenged the participants to try new ways."

– Suzanne Adeler-Bjarnø, Senior Innovation Professional, Novo Nordisk A/S
